## The Facts: Symptoms Are NOT The Problem

You've tried everything you can think of. But it's not working. Or it works for a few months, then it doesn't. Why? Because **instead of fixing the real problems that are holding your company down, you're trying to fix the symptoms that you see.** Symptoms such as:

- ! **Decreased productivity**
- ! **Leaders who can't lead or make decisions and who dump their problems on you, unable to truly lead**
- ! **Flat or decreased profits**
- ! **Not enough time**
- ! **Stress-related illness, like diabetes and heart disease**
- ! **Accidents**
- ! **Sleepless nights**
- ! **Self-medicating with food, alcohol or drugs**
- ! **Complaining buyers**
- ! **Employee theft**
- ! **Lawsuits**
- ! **Not enough leads – Sales – or revenue**
- ! **Complaining and bickering employees**
- ! **Gossip, backstabbing, rumors**
- ! **Self-doubt**
